U. S. DEPARTMENT OF AGRICULTURE,

WASHINGTON, D. C.

BUREAU OF PLANT INDUSTRY  
Fruit and Vegetable Crops and Diseases

M. R. N. 8-3591

An aerial photograph of a vast tree nursery. The landscape is filled with rows of young evergreen trees, organized into long, straight aisles that stretch across the terrain. The trees are densely packed in some areas and more spaced out in others, creating a rhythmic pattern of green and brown. The perspective is from directly above, looking down on the rows of seedlings.

Thousands of young evergreens in our nursery · hundreds of varieties

# COMPETITIVE PRICES

We are in the best position this year to lead the field in making attractive prices. Our stock of 25,000 evergreen trees and shrubs in one, two and three years olds gives us this advantage. Let us figure your list of requirements.

## INFORMATION

---

### Read Carefully

---

**Location**—Our main nursery and Floral Gardens is located on the River Road (old highway) one and one-half miles North of city limits where you will find the miniature house, rose garden and large rockery.

### Visitors Always Welcome

**Planting Season**—Evergreen trees and plants with balls of earth may be moved as early as October, while varieties of fruit and nut trees, rose bushes and shade trees after November 1st and all as late in the spring as the month of May. Your personal inspection of this stock is invited.

**Landscape Planting Service**—We are pleased at all times to make a personal call without obligation and help you solve your problems of ornamenting your home grounds. With the thousands of fine trees and plants in many sizes to choose from you will find our estimates very low in price.

**Guarantee**—We exercise the greatest of care in delivering first class, true to name stock and hold ourselves in readiness to replace same when proven otherwise. But at no time will we be held liable for an amount greater than the original purchase price.

We are starting our 30th year of nursery operation in Lane County. We enjoy the patronage of our old customers as well as adding hundreds of new buyers each season.

## EVERGREEN SHRUBS

The great beauty of the broad leaved evergreens make them most valuable for gardening purposes. Many are among our most spectacular and gorgeous flowering shrubs, while their broad attractive leaves show out most effectively during the parts of the year when many trees and plants are without foliage. There is practically no end to the charming results that can be obtained by the liberal use of this class of plants.

### **Abelia—**

Grandiflora, delicate pink flowers summer and fall. 40c - 50c - 75c - \$1.

**Oregon Grape**—Yellow flowers. 50c - 75c - \$1 - \$1.25.

**Oregon Myrtle**—Fine lawn specimen. Small plants. 50c.

**Photinia**—Red leaves in spring. 35c - 50c - 75c - \$1 - \$1.50.

### **Privet—**

California, Hedging size. \$8 to \$10 per 100.

Specimens. 25c - 35c - 75c - \$1 to \$1.50

Chinensis. 25c - 50c - 75c - \$1 to \$1.50

Golden. 25c - 50c - 75c - \$1 to \$1.50

Lodense. 25c - 35c - 50c - 75c to \$1.50

Hedging size. \$7.50, \$10 to \$15 per 100.

Lucidum, wax plant. 40c - 50c - 65c - 90c to \$1.25.

### **Rhododendrons—**

Grafted, pink, crimson, white, purple. \$2 to \$3 and \$4 to \$5.

**Skimmia**—White flowers, scarlet berry. \$1.50 to \$2.

**Stranvesia**—Berries and colored foliage in fall. 35c - 75c and \$1.

**Veronica**—Compact green foliage. 25c - 40c - 50c - 60c.

**Viburnum**—Burkwoodi. Evergreen snowball. New, interesting, fragrant, pinkish buds. \$1.75.

## CONIFER EVERGREEN TREES

This class of evergreen trees forms one of the most valued assets of the ornamental garden. They are very largely used as lawn specimens or in the border as well as for accent points in the foundation planting. The many interesting shades of color to be found in this family can be enjoyed throughout the entire year.

The following list of ornamental trees is the largest and most complete assortment in this part of the country and our prices will meet any competition where quality and size are equal to ours.

### Arbor Vitae—

Baker. Foliage pale green. 50c - 75c - \$1.

Daly Nana. Bright green. Dwarf. \$1.

Bonita. Deep green. Medium. 25c - 50 - \$1 to \$1.50.

Berckman. Dwarf golden. 25c - 50c - 75c - \$1.

Lobbi. Goldspot. Fine for hedging. 40c - 50c.

Pyramidal. Tall, slender. 25c - 50c - 75c - \$1 - \$1.50 to \$2.50.

Woodward. Bright green globe. 25c - 50c - 75c - \$1 to \$1.50.

### Cedars—

Himalaya. Silvery, graceful, tall. 50c - \$1 - \$1.50 - \$2 to \$3.50.

Mt. Atlas. Grafted, real Blue. \$1.50 - \$2 to \$2.50.

**Kitty Kinninmonth**—Large semi-double pink flowers.  
**Los Angeles**—Flame pink.  
**President Hoover**—Cerise pink, flame yellow.  
**Paul's Scarlet**—Immense masses of vivid scarlet.  
**Reveil Dijonnais**—Golden yellow suffused with pink.  
**Talisman**—Orange scarlet and yellow.  
**White Cochet**—Ivory white, tips of petals tinged pink.

## DISTANCES RECOMMENDED FOR PLANTING

Apples .....	25 to 35 feet each way
Cherries, sweet .....	25 to 35 feet each way
Cherries, sour .....	20 to 25 feet each way
Peaches .....	22 to 25 feet each way
Pears .....	22 to 25 feet each way
Plums .....	22 to 25 feet each way
Apricots, Almond.....	22 to 25 feet each way
Filberts .....	25 to 30 feet each way
Walnuts .....	40 to 60 feet each way
Currants .....	5 ft. x 3 ft.
Gooseberries .....	5 ft. x 3 ft.
Grapes .....	8 x 8 to 10 x 12 ft.
Boysenberries .....	8 ft. x 10 ft.

## NUMBER OF PLANTS PER ACRE AT VARIOUS DISTANCES

In planting trees the greater distance  
should be given in the richer soils

Distance Apart	Square Method	Triangular
1 foot apart each way .....	43560	50300
4 foot apart each way .....	2722	3143
6 foot apart each way .....	1210	1397
10 foot apart each way .....	435	502
15 foot apart each way .....	170	196
16 foot apart each way .....	193	222
20 foot each way .....	108	125
22 foot each way .....	90	104
25 foot each way .....	70	81
30 foot each way .....	48	55
40 foot each way .....	27	31
50 foot each way .....	18	21

### *Yes! We Grow Our Own Stock*

We wish to make room in our nursery for new crops of young ever-green shrubs and trees and will clear the ground where five-year-old plants are now growing. Come out and look these over. You may not have another chance as good in years to come.

7 to 9 foot .....\$1.50 ea.

## **Shade Trees**

12 to 16 foot size, well branched.

2 to 3 inch diameter .....\$2 to \$4 ea.

A photograph of a rose garden. In the foreground, there are several large, bushy rose plants with many light-colored, possibly white or pale pink, flowers. A narrow, light-colored path or walkway runs through the middle of the garden, leading towards the background. On the left side of the path, there are some dark, leafy plants and trees. On the right side, there are more rose bushes and some taller, thinner trees. The background is slightly out of focus, showing more trees and a clear sky. The overall scene is a peaceful garden setting.

Visit our rose garden in June and September.
